School Report.

REPORT OF THE Secretary of the Board of School Visitors.

ORGANIZATION.

The Board of School Visitors held its annual meeting October 14, 1885. John Brown was chosen chairman and Andrew Kingsbury secretary.

TEXT-BOOKS.

Two changes were made during the year in the text-books authorized by the Board.

The "prescribed text-books to be used" in the town are: The Bible; Webster Franklin readers; Swinton's spellers; Greenleaf's mathematical series, inductive course, and Greenleaf's National arithmetics; Monteith's geographies; Greene's English grammars; Scudder's History of the United States; and Franklin copy books.

DISTRICT COMMITTEES AND CLERKS.

The committees and clerks of the several districts in the town are earnestly requested to make accurate returns, promptly, to the secretary of the Board, as required by law. For the laws relating to such

returns see "Laws relating to education," compilation of 1886; a copy of which should be in the hands of each committee and clerk. Committees are requested to read over carefully pages 42, 43 and 47 of the above compilation. Clerks of districts should note carefully the requirements of section 28, page 32; and penalty for non-compliance, section 29, page 33 of the same compilation.

RECEIPTS AND EXPENSES.

Received by the town from School Fund and State Appropriation,	\$ 870 75
Received by the town, income from Town Deposit Fund,	272 58
Received by the town, income from Local School Fund,	36 97
Amount paid for schools from Town Tax,	1,997 26
Amount paid School Visitors for services rendered in 1885,	109 00
<hr/>	
Total paid for support of schools from Town Treasury,	\$3,286 56
Amount paid or due by districts for Fuel, Incidentals and Repairs, in excess of the amount received from the Town—as reported by District Committees—\$50 81, of which amount \$28 04 was for repairs, leaving a balance paid for support of schools,	\$22 77
<hr/>	
Total paid for the support of schools for the year ending Aug. 31, 1886,	\$3,309 33

Of the \$3,309 33 paid for the support of schools \$2,903 47 was for Teachers' wages, \$296 86 for Fuel and Incidentals, and \$109 00 for Superintendence.

Amount of Grand List \$636,443 00; amount paid for Schools from Town Tax \$1,997 26, or three mills on a dollar of the Grand List.

RECOMMENDATIONS.

At a meeting of the Joint Board of School Visitors and Selectmen held at the Town Clerk's Office, July 13, 1886, it was unanimously voted to report to the town the estimated cost of each of the public schools in the town for the current year as follows, viz:

District No. 1	\$1,150 00
“ “ 2	215 00
“ “ 3	350 00
“ “ 4	215 00
“ “ 5	215 00

District No. 6		215 00
“ “ 7		215 00
“ “ 8		215 00
“ “ 9		215 00
“ “ 10		215 00

Total,		\$3,220 00

The report of the Acting School Visitors, herewith submitted contains a statement in detail, “of the condition of the several schools during the year preceding, with plans and suggestions for their improvement”; and we ask all who are interested in the welfare of our schools, to read over carefully that report and help us as far as possible to carry out the suggestions and recommendations it contains.

Report of the Acting School Visitors.

DISTRICT NO. 1.—CENTER.

There were three terms of 14, 12 and 10 weeks, respectively, in each of the three departments, commencing Sept. 14th, Jan. 4th and April 12th.

The Grammar Department was taught by Mr. Payson E. Little. Good order was maintained and marked progress made in all branches of study. We would especially commend Geography, including map drawing, Arithmetic and Grammar, with practical language lessons.

He was a faithful instructor, and it is to be regretted that his services could not be secured for another year.

The Intermediate Department was taught by Miss Alice Mc-Christie. One great obstruction to the best welfare of this department was the irregular attendance. Unless children attend school regularly we cannot expect greater advancement. We trust that parents will cordially unite with the teacher and thus secure better attendance the present year.

The discipline was good and the pupils made more than average progress.

Miss Lucy M. Perkins has had charge of the Primary Department nearly all the time since our graded school was established. She is thoroughly adapted to this position and by faithful work well earns our approbation.

DISTRICT NO. 2—SOUTH STREET.

There were three terms of ten, twelve and nine weeks, respectively, commencing September 7th, December 7th and April 12th.

This school was taught during the whole year by Miss Sarah W. Kelley. The order in the school-room was excellent and good progress was made by the scholars, considering the fact that the school was much broken up by sickness.

DISTRICT NO. 3.—EAST, (South Parish).

There was three terms, of 9, 12 and 12 weeks, respectively, commencing September 14th, December 7th and April 5th.

Mr. Edward E. Packer taught this school during the year. Mr. Packer proved himself a faithful and efficient teacher. The examinations at the close of the terms were very interesting. His pupils were orderly and showed marked improvement in spelling, reading

and arithmetic. The district has done well by engaging his services for another year.

DISTRICT NO. 4.—NORTH SIDE, (South Parish).

There were three terms, of 11, 14 and 11 weeks respectively, commencing Sept. 7th, Dec. 7th and May 3d.

This school was taught by Miss Grace W. Stanley during the Fall and Summer terms, and by Mr. Gilbert O. Southwick during the winter. The order in the Fall term was fair; winter, poor; spring, good.

There was some progress each term. The spring term was specially successful. This school is crippled by the lack of a good blackboard.

	----- \$202 05

DISTRICT NO. 5.—SOUTHEAST.

There were three terms of ten, twelve and ten weeks respectively commencing Aug. 31st, Nov. 30th, and April 19th.

Mrs. E. Gertrude Kingsley taught the entire year. Owing to sickness and other causes the average attendance fell below our expectation. Under the circumstances the improvement in the school was all that could be expected. Scholars that attended regularly made commendable progress.

	————\$215 00

DISTRICT NO. 6.—EAST (NORTH PARISH.)

There were three terms of ten, twelve and ten weeks respectively, commencing Sept. 7th, Dec. 21st, and April 12th.

Miss Alice A. Kingsbury taught the fall and summer terms in this school. Her thoughtful endeavors to help her pupils were very evident. The school was orderly, the room neat, and the pupils gave evidence of good work done. There was a ready response to the teacher's call to duty. In Arithmetic the care of both pupils and teacher seemed to look after thoroughness. The new History proves here an acceptable one. The summer term lacked the enthusiasm of numbers.

The winter term was taught by Mr. Clinton Bennett. He had a full school and one in many points very brisk. He seemed intent on keeping his pupils astir. His calling for items of news of various kinds, and some essays from his scholars threw them somewhat off from their beaten track and interested them.

If we criticize any we think there was too much rapidity for thor-

ough work. In Book-keeping, which Mr. Bennett introduced, there was some good work done. Good order largely prevailed.

	-----\$216 81

DISTRICT NO. 7.—SOUTH.

There were three terms, of nine, fourteen and nine weeks, respectively, commencing September 14, November 30 and April 12.

Miss Fannie West taught the Fall and Summer terms. She did fairly well. The latter term, however, was an improvement upon the former. Miss West is a faithful and diligent teacher, but fails in discipline, and therefor the school was not what it would have been in the hands of a good disciplinarian.

Irregularity of attendance and the failure of the parents to visit the school are considered by your Visitor as very detrimental.

The winter term was taught by Mr. Perkins L. Lathrop. The order was excellent and the progress of the pupils very satisfactory.

	-----\$224 80

DISTRICT NO. 8.—NORTH EAST (North Parish).

There were three terms, of ten, twelve and eight weeks respectively, commencing September 7, November 30 and April 19. Miss Amelia F. Goodwin taught the Fall and Summer terms and William E. Hawkins the winter term. Excellent progress was made by the scholars under the vigorous drill and thorough instruction of these teachers, who by education and long experience, are preeminently fitted for their work.

	-----\$215 62

DISTRICT NO. 9.—NORTH.

There were three terms of ten, twelve and twelve weeks respectively, commencing September 14th, December 14th and April 12th.

Here were three different teachers during the year. This frequent change we deprecate as impairing the true interests of the pupils in such schools.

Miss Minnie T. Satterlee was the teacher during the fall term. She seemed to have the friendship of her pupils and helped the little ones in reading and spelling. In some other studies, as Arithmetic she did not seem to be very successful. The room was kept in quite good order, though discipline was not of the wisest character. Some

of the trouble perhaps arose from a lack of life in the teacher. There was too much letting the classes go on as they would.

Yet in this second term of her service Miss Satterlee gave token of advancing capacity.

The winter term was taught by Mr. Everett W. Mason. He had a pleasant and energetic way with him, which helped the school. He was respected by the scholars, and was in friendship with them, both indoors and out. His experiment of a very large reading class for the first class, somewhat retarded a thorough drill, though it had its advantages.

Geography was well pushed, as were most of the other studies. It was a successful term.

The summer term was taught by Miss Loura Ewen. There was quite a large enrollment at the outset, which gave promise of a fine school term.

But mumps and whooping-cough sadly deranged its course;—some classes were broken up and others much affected by this. Miss Ewen gave the impression of earnest effort for the improvement of both her scholars and herself. The room was kept in good condition. The term was hardly a fair trial of the teacher's capacity, since it was so interrupted by the pupils' illness.

	————\$215 00

DISTRICT NO. 10.—WEST.

There were three terms of eight, sixteen and seven weeks, respectively, commencing Sept. 14th, Nov. 16th, and April 19th.

The fall and summer terms were taught by Miss Emma J. Hall.

Both may be called successful terms. We could see a helpful interest between teacher and pupils. The lessons were kept well under the teachers' attention. The order was good. We think there was general satisfaction given. One special excellence all through the year may be noted of this school, viz: the high average of the pupils' penmanship.

The winter term was taught by Mr. David A. Brown. We can say that this also, as before in the same school, Mr. Brown taught successfully. Courtesy marked the mutual relations of teacher and pupils. Mathematics was especially well attended to. Also in English Grammar there was a good drill given. In matters of reading and spelling there was a faithful attention urged by the teacher. The term was a long one and taxed the strength of both teacher and pupils.

In general we remark, on the few visits made by parents at our schools, that this is discouraging to both teachers and pupils.

If there were more parents looking in upon their children's school hours, there would be more interest manifested by the children and parents too. School books would be more readily obtained for the pupils. We find that the new arithmetic is approving itself both to pupils and teachers. The new History, while approved by those who have examined it, is, we are sorry to see, but little sought for or studied. We would suggest that, in some cases, whitewash applied to ceilings and walls, and paint or “coating” to blackboards, would add both to health joy and efficiency.

In behalf of the Board of School Visitors, this report is respectfully submitted.

ANDREW KINGSBURY, Secretary of the Board.

Coventry, Conn., Oct. 4, 1886.

Selectmen's Report.

The Selectmen of the Town of Coventry respectfully submit the following report, showing the receipts and expenditures for the year ending, October 1, 1886, and the financial condition of the Town Oct. 1, 1886.

Statement in detail of Receipts and Expenditures, under the following appropriate heads:

SUPPORT OF POOR.

Paid Isaac Turner, overseer of poor as follows, overpay, 1885,	\$ 18 40
Town of Norwich, O'Neil children,	32 00

JOHN BROWN, Collector.

REPORT

OF THE

Board of School Visitors

Coventry, Conn.

For the Year Ending Oct. 31, 1887.

BOARD OF SCHOOL VISITORS:

ALEXANDER S. HAWKINS, Chairman, Term expires 1887.

H. PERKINS TOPLIFF, chosen to fill

a vacancy,	"	"	1887.
FRED S. SWEET,	"	"	1888.
JOHN BROWN,	"	"	1889.
CHARLES R. HALL,	"	"	1889.
ANDREW KINGSBURY, Secretary,	"	"	1887.

SCHOOL REPORT.

Report of the Secretary of the Board of School Visitors.

ORGANIZATION.

The Board of School Visitors held its annual meeting, at the house of Mr. Fred S. Sweet, October 18, 1886. Alexander S. Hawkins was chosen chairman and Andrew Kingsbury secretary. Rev. Frank E. Jenkins tendered his resignation as a member of the Board which was accepted. H. Perkins Topliff was chosen to fill the vacancy.

TEXT BOOKS.

The list of text books authorized by the School Visitors are: The Bible; Webster Franklin Readers; Swinton's Spellers; Greenleaf's Mathematical Series, Inductive Course, and Greenleaf's National Arithmetics; Monteth's Geographies; Green's English Grammars; Scudder's History of the United States and Franklin Copy Books.

The General Assembly, session of 1886, passed the following acts: "Physiology and Hygiene, relating especially to the effects of alcoholic liquors, stimulants and narcotics on the human system, shall be taught as branches of study in the public schools, and persons desiring to teach in such schools shall, after June 1, 1887, be found qualified to teach said branches of study before receiving the certificate required by law." "The State Board of Education shall prescribe the text book to be used in teaching physiology and hygiene as required by law, and shall prepare, or cause to be prepared, a text book, and, if desirable, charts shall be furnished to towns and school districts for the use of scholars in the public schools needing the same, free of expense."

The text book prepared in compliance with the foregoing act is now ready for distribution, and the following quotations from a circular sent out by the Secretary of the State Board of Education gives a brief description of the book and directions for its use and care:

"The book is elementary. Examiners and teachers should be familiar with more extended works. It is not a reading book. No special endeavor has been made to render the text interesting. The subject must be made attractive by teachers, and to this end suggestions, illustrations and experiments have been given. The whole is an outline for teachers and scholars. It follows that nothing will be gained by putting the book into the hands of all scholars. Scholars below the highest class in graded and ungraded schools can be most successfully taught by oral lessons, using the book as an outline. A set of twelve diagrams will be sent for each school. They are intended as copies for drawing lessons.

The books will be furnished to towns 'for the use of scholars in the public schools.' The law is understood to impose the distribution and care of these books upon the Visitors who are town officers. They can be used by scholars in the different schools, but remain under the control of the Visitors, who should see that they are preserved and transmitted from class to class as they are needed.

Books can be furnished free only for the use of scholars. In order that teachers and others may supply themselves, copies will be sent to any address upon receipt of 25 cents for each copy, which covers cost of book and expense of sending."

ARBOR DAY.

Arbor Day was observed by a number of our schools last spring. We hope that in years to come all the schools in the town will annually observe the day, and that parents, teachers and scholars will unite to make it pleasant and profitable. Not only should trees be planted, but, when planted, properly cared for, obnoxious bushes, weeds, stones, etc., should be removed and the grounds around the school houses be made attractive.

If the spirit of the day should so pervade the community that the roadsides should be kept free from bushes and weeds, and fields now given over to a worthless growth should be reclaimed, either by cutting and subduing, or by planting valuable timber trees; then the homes of our children would be more attractive and our farms more valuable. A proper observance of the day will tend to bring about such a desirable change.

TEACHERS.

Twenty one different teachers were employed, in the town, during the past year, at wages varying from \$20, to \$50, per month, as shown by tables 1 and 2 of this report. The report of the Acting School Visitors, herewith presented, will show that most of the teachers were quite successful in their work. Last winter the people of the South Parish and others who attended, enjoyed two lectures furnished by the state and delivered by Secretary Hine of Hartford and Prof. Merrill of Willimantic, in the interest of education. All who can, but especially teachers and all who are intending to teach, should attend such meetings when held in this vicinity; and if teachers would close their schools one day each term and visit other schools it would be a great help to them in their work, and their schools would be correspondingly benefited. We hope all our teachers will take advantage of the opportunity our public libraries offer them.

RECEIPTS AND EXPENSES.

Received by the town from School Fund & State Appropriation	\$810.00
“ income from Town Deposit and	
Local School Funds,	420 00
Amount paid for schools from Town Tax,	1980.10
“ School Visitors for services rendered in 1886,	147 00
<hr/>	
Total paid for the support of schools from Town Treasury,	\$3357.10
Amount paid by the town for each child enumerated,	\$8.92
“ “ in average attendance,	\$15.53

The joint Board of School Visitors and Selectmen, at a meeting held July 2, 1887, "voted, to recommend an appropriation of \$3170.00 for the support of the public schools in the town for the ensuing school year, to be divided as follows, viz:

District No. 1	\$1,125.00
" 2	215.00
" 3	325.00
" 4	215.00
" 5	215.00
" 6	215.00
" 7	215.00
" 8	215.00
" 9	215.00
" 10	215.00
<hr/>	
Total,	\$3170 00

and that no money be paid by the town for the support of schools for a longer period than thirty-six weeks in District No. 1, and thirty weeks in each of the other districts."

The law makes it the duty of the secretary of the board to notify the committee of each district of the amount recommended for that district, and, therefore, it is very important that district clerks forward to the secretary of the Board of School Visitors a certified list of the officers elected at the annual district meeting, together with their post office address, as required by law.

It is desirable that summer schools close before the last week in June as districts are now required to hold their annual meeting in that month.

In closing this report we desire to thank all those who have aided the secretary in his work, by promptly forwarding desired information; and earnestly invite a careful consideration of the following tables and Acting School Visitors report.

DISTRICT, NO. 1.—CENTER.

No change of teachers was made during the year. The Grammar department was taught by Mr Frank A. Young. This was his first experience in a graded school but he proved equal to its requirements. The low tone of voice used by the pupils in explaining work and answering questions caused the school to appear at great disadvantage. This is a needless fault and should be corrected. The Intermediate and Primary departments were taught by Miss Alice McChristie and Miss Lucy Perkins respectively. They are both good teachers and the year's work was satisfactory. We expect greater results the present year, as the same teachers are employed and no time will be lost in getting used to the work.

DISTRICT NO. 2.—SOUTH STREET.

Miss Carrie A. Johnson taught the entire school year. Scholars in this district that attended school regularly made commendable progress, while others owing to sickness and other causes lost the benefit of the school entirely.

DISTRICT NO. 3.—EAST (South Parish.)

This school for the past year has been under the efficient care and teaching of Edward E. Packer. A well governed and ably taught school, thorough, solid progress in all the studies is the result.

DISTRICT NO. 4.—NORTH SIDE. (South Parish.)

Miss Grace W. Stanley taught the fall term and as usual, was successful. H. Perkins Topliff taught the winter term with marked success. The examination at the close of the school was unusually interesting, and illustrated what a live teacher can do, with a few small children, to render his school excellent. Miss Rhoda Dexter taught the summer term, with her usual degree of success. She is a teacher of experience and the school made fair progress.

DISTRICT NO. 5.—SOUTH EAST.

Miss Mary W. Peckham taught the fall and summer terms. Fair order was maintained and the examinations at the close of the terms were interesting, showing faithful work on the part of both scholars and teacher. Mr. Martin Parker, an experienced teacher, taught the winter term and as usual was successful.

DISTRICT NO. 6,—EAST. (North Parish.)

Miss Amelia F. Goodwin taught the fall and summer terms, and Perkins L. Lathrop the winter term. School room kept in good order. The teachers manifested much interest in their work, and were successful in drawing out and helping on their pupils. Both are experienced teachers and it is a pleasure to visit their schools.

DISTRICT NO. 7.—SOUTH.

Mr. Arad Manning taught the fall term. He did fairly well, but needs more experience in order to become a successful teacher. The winter and summer terms were taught by Miss A. Lee Kelley. She failed in maintaining order and there was a consequent lack of progress. The summer term, however, was an improvement upon the winter term.

DISTRICT NO 8 —NORTH EAST.

Miss Augusta L. Camp taught the fall term. The system of teaching which she tried to introduce in this small school, did not "apprehend that for which it was apprehended." It was not appreciated by either patrons or pupils, hence, an unsuccessful and unprofitable term of school. The winter term was taught by Wm. H. Vail, and was creditable to both teacher and pupils. The order was most excellent and the term a profitable one for the district.

The summer term was taught by Miss Jennie H. Church who manifested unusual ability and thoroughness in her teaching; and, had she modified her seeming severity with the constraining influence of love she would have been still more successful.

DISTRICT NO. 9.—NORTH.

Mr. Everett W. Mason taught the fall and winter terms with his usual degree of success. The order was good and teacher and pupils were industrious.

The summer term was taught by Miss Faunie W. West. Fair order was maintained and good progress made.

DISTRICT NO. 10.—WEST.

Fall and winter terms taught by Miss Ida M. Lovell, a well informed teacher. Room was kept in good order. Teacher alert—showing much interest in the lessons of the older scholars. Owing to inexperience in our mixed schools there was a lack of tact in classifying, resulting in a failure to hear all the classes daily, and the younger pupils suffered in consequence.

Rev. John H. Sherman taught the summer term. He is a teacher of large experience and a hard worker in the school room. The school made very rapid and thorough progress under his instruction. Without specifying all the good points, we would mention the thorough and varied drill in mathematics, the method of teaching by topics—used with excellent results in history, grammar and geography,—and the weekly reviews.

In behalf of the Board of School Visitors, this report is respectfully submitted.

ANDREW KINGSBURY, Secretary of the Board.

Coventry, Conn., Oct. 3, 1887.
